

A conversation with Paul Meiliara

*Sunday May 1st, 7pm
Deadwood Community Center
Sponsored by the Siuslaw Institute*

Paul Meiliara, a Maasai conservation and community leader from Kenya, will be giving a presentation and conversation on this Sunday evening. He visited Deadwood two years ago this summer, and gave a presentation in July 2014. Paul is one of Shiloh's closest friends from Kenya, and a champion of modern opportunities and traditional life-ways and values. He considers Deadwood to be his second home.

Paul will discuss the threats to his People's way of life due to modern pressures, wildlife issues, climate, and poverty. He will also mention economic opportunities that were researched and brought forward in Shiloh's work with those communities for his doctoral dissertation work.

Bring snacks or refreshments if you care to, and come to enjoy this finale to this MayDay in Deadwood!

Thank you,
Johnny Sundstrom
