AN IRISH HUSSY

My life has been haunted by a Georgia harlot because a London cutpurse went unhung.

When the events recited here occurred my family lived in Atlanta, than known as the Gate City of the South. The time seems eons ago for I have lived so long. At 94 my life span covers almost twice the allotted span the Bible promises.

In the South family visits are frequent. For one thing they save the expense of a tourist cabin now called a motel.

One bright morning in May with the mild perfume from dogwood blossoms and violets scenting the spring air, my cousin, Margaret Barnes visited us bringing a companion, Kitty O'Hara, an Irish girl about 18 years old, my age then.

Physical beauty is hard to define in words but powerfully felt. If beauty were a melody, Kitty would have been a symphony orchestra. Her aura lighted the room with its presence.

Once, when Kitty excused herself, Margaret told me a young man had committed suicide when Kitty reject his courtship.

She defined the French expression, femme fatale.

Our visitors were at our house for only three days.

But in leaving Kitty O'Hara left behind her a memory I shall carry to my grave.

"Beauty vanishes. Beauty passes,

However rare, rare it may be.

When I am dead who will remember

The lady of the south countree?

Boyd Upchurch!

DEADWOOD NEIGHBORHOOD WATCH – MARCH, 2013

February was a remarkable month in that four incidents occurred and one related incident on March 3 is reported here:

Feb. 1: Upper Deadwood Creek Road. DUI, a male driver of a white, pick-up truck struck a roadside tree head-on. The incident occurred at about 6 p.m. The driver appeared unhurt. DNW members took driver to safety and put out orange cones to alert traffic. The truck and cones were removed the next day, and cones returned to DNW.

Feb. 9,10: Middle Deadwood Creek Road. A well-used, older model, navy blue, 4-door subcompact was parked on land with 'NO TRESSPASSING' sign. After a couple of days, the car was gone, and the person(s) left behind two, human excrement piles next to the entrance, with toilet paper stuck inside. Oregon license plate.

Feb. 20,21 between 3 p.m. 20, and 3 pm. 21: Upper Deadwood Creek Road: An unoccupied trailer with locked door was broken into and household items stolen, along with small tools from the tool shed. A suspicious whitish panel truck was seen cruising up and down Deadwood Creek Rd in the daytime.

Feb. 26 early morning hours Upper Deadwood Cougar Creek: Apparently locked gate was forced open, and the unoccupied house was broken into and boxes of personal belongings stolen. Sightings of an off-white panel truck with vent on top sighted in area.

March 3 early morning hours, Upper Deadwood, Cougar Creek: Repeat theft at same (Feb. 26) house walls stripped and electrical wiring removed. Other items stolen.

DNW began random Patrols in Upper, Mid, Lower Deadwood (includes hwy 36). Lane County Sheriff's office is doing random Patrol, and has identified suspects. Because of the warmer weather, the release of many criminals from Eugene jails, and reduction in law enforcement due to limited finances, theft has been on the increase in cities, but less so in rural areas (armed).

WHAT YOU CAN DO

WATCH and REPORT suspicious activity to Sheriff's Dispatch and file a report for an incident with Dispatch. These reports will be used to support increased number of Sheriff deputies to respond to us in our county.

INSCRIBE your major tools with DNW-(your last name) so that these can be returned to you when found.

REPORT to DNW incidents and suspicious activity so we can keep all informed:
Jesse, Craig, Maryanne, Marina

CALL DNW for information how to keep your homes safe when away.

JOIN DNW. We need to increase PATROLS, maintain signs, keeping up alertness and communications, and responding to incident reports and

DNW MEETNG: Thursday, March 14, 6:30 p.m., Deadwood Community Center.

Would you like to send your old, boring DVD's with me to Jamaica when I go at the end of March? I am always being asked to bring movies to my friends. Especially popular are action movies but any subject matter is great. If you've got videos you probably won't watch again, please consider giving them to me. They would be greatly appreciated and watched by some seriously grateful island folks.

Respect,
Michelle

Deadwood Talent Show Saturday, April 6th, 7:30 pm

A friend from back east asked, "what do you all do for fun out there in Deadwood?"

"Well, we make our own", I replied. "For example, we hold an annual talent show, where we come together and entertain each other. There's a lot of very talented people out here!"

And it's that time again, just a little over a month. You could just show up that night (April 6) and put your name on the list to perform. But it will be a better show if I know ahead of time if you're taking part. I'll be calling people from past years plus new prospects. But if you don't hear from me, please call me (Billy 3555) and volunteer. Don't be shy; we're a very appreciative audience. I'll also need help setting up and some baked goods to sell. This event is a fund raiser for DCS. Thanks.

POSITIVE THINKING

Once I heard a ditty I considered rather witty. That little-bitty ditty went like this:
Always lash on to the affirmative. Just eliminate the negative.

Never let your answer be "No."

"Forward," that's the only way so go.

When one makes up his mind to never lag behind, he will always be a leader in the fray, tomorrow, now, or yesterday.

But if he also chooses to be on the side that loses that's the choice he's given voice. There has never been a decision that does not need revision or a choice left unfettered which could not easily be bettered.

The great disadvantage of a too-long life is that sinning ceases to be fun. Holes make good Swiss cheese, but not the one we are laid to rest in.

MATH LOVERS' DELIGHT

In math, the Greek letter π (Pi) stands for the ratio of the circumference of a circle to its diameter. The exact value of Pi cannot be measured, but it has been calculated to more than one trillion decimal places, starting with 3.14159. In honor of this number, math lovers throw parties on March 14 at 1:59 AM or PM (3/14 1:59).

Some people eat pie, some watch the movie *Pi*, and some just reflect on how Pi has affected their lives.

Tales From The Tunnel
By Mark Kotila

The Paper Guy

From Mapleton to Triangle Lake, as you all know, we live in a beautiful river valley. Beautiful rivers and streams, lush & verdant mountains and grasslands. Pastoral. I know this because I have lived in Swisshome for over sixteen years.

A little over three years ago I made a terrible mistake and this valley dramatically changed for me. For me it is now a twisty, windy long black tunnel with a yellow line running through it. And somehow, horrible weather is able to get into this tunnel.

Yeah, that's when I became the "Paper Guy". I'm that pesky, yet passionate, paper peddling purveyor of print. I bring you news about such good things like the new parking garage going up in Eugene, or on an international level, how your tax dollars are being spent to save the two-headed Guatemalan Sea Turtle.

I buy papers and, after an enormous mark up, sell them back to you. This affords me quite a lavish lifestyle. Though taken for granted by most, there are those, in the huge social circles I travel, that ask me what it's like out there at night. Once I regale them with a tale or two, some have said I should write about these "tales from within the tunnel". I do see things. And things do happen out there that some of you might find interesting. So, I'll give it a go.

For those of you who subscribe to the Register-Guard, as you sit there with the bacon sizzling, piping hot coffee in front of you – perhaps seeking the eternal wisdom of Dear Abbey, or maybe engulfed in a riveting tussle with word scramble – have a special thought for Mark, the Paper Guy. At that same time I'm at the foot of my bed, bleary eyed, sore from moving a bunch of rocks off of Red Hill, wet from changing that flat way up Deadwood Creek, yet truly satisfied in knowing you won't be without your crossword puzzle. Hey, you guys know who you are!

If I'm not run out of town for writing this article, we'll have a go at this again next month.

Of all the things to lose . . . one of the most expensive is . . . others people's trust in ourselves.

Community Alliance of Lane County, a 46 year old non-profit organization promoting peace and social justice, announces its Third Annual Peace Scholarship. CALC is offering this \$500 scholarship to a student from either Mapleton or Siuslaw High School who might otherwise think that enlisting in the military is the best way to gain money for college. We are looking for an outstanding student who exemplifies the idea that peace can be a powerful and transformative tool. The application is available to senior students through the Counseling office.

We are seeking community donors; please think about helping by contributing to the scholarship fund. All donors will participate in selecting the scholarship winner later this year. Your check, made out to "CALC" should be mailed to Judy Schwartz at 04899 Heceta Beach Rd., Florence 97439. Ms. Schwartz, the Mapleton/Florence fund-raiser, is available by phone at 997-1012 to answer any questions or address any concerns you may have. CALC promotes the idea that peace is powerful, effective and relevant. We hope that you will choose to be part of this important project.
